US Election 2020 Twitter Sentiment Analysis

The [US Election 2020 Sample Dataset](#) from Kaggle points to two research papers:

- [2017 Election Sentiment Analysis in UK](#)
- [Election Sentiment Analysis: 2016 US and 2017 UK](#)

There were also a couple of existing attempts at implementing sentiment analysis for this dataset on Kaggle.

- [NLP Sentiment Analysis for US Election](#)
 - I was able to reproduce the results of this one on my computer. Please see the results on my GitHub page [here](#).
